

Juice Plus+ Quality Assurance

Juice Plus+ products are made using the highest quality fruits, vegetables, grains, and other plant-based ingredients. The Juice Plus+ ingredients are tested to ensure they meet The Juice Plus+ Company's strict standards for safety, quality, and consistency. Blended ingredients are carefully tested during every step of the production process to ensure the quality and purity of the final product.

The facilities used to manufacture Juice Plus+ products are state of the art and adhere to Good Manufacturing Practices (GMP) within our industry, including the US Food and Drug Administration (FDA), Australian Therapeutic Goods Administration (TGA), Swiss Agency for Therapeutic Products (Swissmedic).

Finally, the Juice Plus+ capsules (Fruit, Vegetable, Vineyard, Omega) and Complete shake mixes are routinely tested for compliance with The Juice Plus+ Company's own strict standards for safety, quality, and consistency. This comprehensive testing ensures that our Juice Plus+ products meet or exceed the US FDA and EU regulations for safety and quality....
