Heavy metals and pesticides

According to our philosophy, The Juice Plus+ Company utilizes only the best ingredients available for the manufacturing of the Juice Plus+ products. All ingredients are selected carefully and the whole production is monitored and controlled to ensure that the requirements for the raw materials are strictly observed. These requirements include strict standards regarding pesticides and heavy metals.

A handwritten signature in black ink, appearing to read 'C. Madero', with a stylized flourish at the end.

Carlos F. Madero, Ph.D.
Director, Quality & Technical Services
